Hi Heribert,

I think it's great what you're doing here. There is so much information out there, but it takes a lot of searching to find everything. So a very good idea of yours to start this wiki so everything can be cross-referenced. I'm still learning how to use it, but hopefully I can contribute, and others will follow.

One suggestion: Do you think it is ok to allow everyone in? It would only take one person to destroy everything that is created here. And we know that at least one of the McCann's family members is monitoring websites 😊 Are you making backups?

Thanks,

Ananke

Hi Ananke,

thanks for beeing Member #1. Thanks for contrinuting and hopefully you may do some advertising to others with serious knowledge in the case. Well I'm doing backups every one or two days. Of course it is a risk to allow everyone in. We will see. In case of spamming and flaming users may be banned. When things go more worse, we then will make closed groups of serious co-workers.

So long, best wishes, Heribert. — [Heribert Genreith](#) 2013/11/27 22:11

Thanks Heribert.

I think in time more people will join. Perhaps post another message on the forum when things are a bit more advanced.

It's not your fault, but people are very suspicious on the forum. (I had a very bad start myself).

They may think you're someone else as recently there was a person (a troublemaker) on there with a German name (half British / half Austrian). They may think you're the same person. I know you're not 😊.

And people don't like change 😊 and perhaps they think there's enough information out there. But that information is all over the place. Hopefully we can get it all here, referenced, and cross-referenced. It will take some time, and then we can start linking everything. It's been done many times before, but not like this as far as I know.

Tschüß,

Ananke

Thanks Ananke,

for the mail as well as for your great work done.

(Good gracious! Those Austrians, And yes I won't mention the war... "*suspicion*" is the most striking word for this terrible case... Well, I will do my very best, Cheerio!)

With best wishes, Heribert.

Kein Problem!

No, we won't mention the war, though one of my favourite episodes of Fawly Towers is [Dont mention the War](#) 😊
